

Tab Title Planner

Plan a custom tab divider set — one section title per line, in the order the binder reads.

How many characters fit per line?

Cut	Tab width	Chars/line
1/3 cut	3.33"	~23
1/4 cut	2.50"	~17
1/5 cut	2.00"	~14
1/6 cut	1.67"	~11
1/7 cut	1.43"	~10
1/8 cut	1.25"	~8
1/10 cut	1.00"	~7

Longer titles are fine — they wrap onto a second line automatically, up to three.

Choosing a cut

Count your sections. Up to 5 → 1/5 cut. Six to eight → 1/6 or 1/8. More → 1/10, or the set steps into a second bank automatically.

List finished? Type it at tabzoola.com/configure/paper — or paste the whole list at once with **“Already have your titles in a list?”** The set sizes itself, prices live, and your free PDF proof is ready before you order.
